naturally cranky, and voracious for bliss  
doorfiend to the haunted underside of  
both **techno** and **chillout/ambient**.  
sets are a writhing crush of layers, caverns raging  
always on the hunt for some new kind of kick.

*At war with sound* since 1995  
spawn of NYC's seminal **illbient** scene,  
which narcotic creepiness persists always.  
host for four years of **Undercity**,  
a weekly chillout party at the original Halcyon;  
frequent guest at Twilo and the brilliant  
Cloudwatch events: *sounds for the tripatorium*.

In Berlin, since 2013 resident DJ with **lsb.TV**,  
weekly on HD cable, radio, and web on Alex Berlin  
(with host Dr. Walker of Air Liquide),  
thrilling a diverse international audience  
with sizzling ambient and hulking dub, and now  
Liquid Sky Berlin Presentzzz, on Alex FM 91.0
